

TECHNICAL DATA SHEET

“DAMASCO VELVET”

DESCRIPTION: Decorative covering for interior walls based on special natural raw materials giving an antique look, achieving this original “damask effect”, which is especially suitable for classical as well as for modern style decorations.

PARTICULARITY: The product is giving a high level of breathability; prevents mildew and fungi growth and is UV resistant.

APPLICATION TECHNIQUE: on new as well as on already painted surfaces apply two coats of “PRIMER DAMASCO”.

When the “PRIMER” has dried apply a thick layer of “ANTICO DAMASCO” using a wall brush and leaving randomly some free spaces, which will be covered later on. After 10-15 minutes (the product still has to be wet) level the surface covering the spaces left free previously. Before the product has completely dried proceed with the decorative finish, which consists in smoothing over the surface making half-circular movements with a stainless steel trowel with rounded edges, thus achieving the desired effect.

PRODUCT IS READY FOR USE: no need to dilute with water.

COLOURS : product in neutral colour; possible to tint with the colorants “TONER”.

VISCOSITY	: pasty
YIELD	: 150-200 g/m ²
FLAMMABILITY	: not flammable
HEAT-RESISTANCE	: 5° to 40° C
DENSITY	: 1.100
DRY RESIDUE	: 70%
SHELF LIFE	: one year at 21° C, not exposed to direct sunlight
PACKAGING	: 2,5 AND 5 Kg.
KIND OF PACKAGING	: can PE/HD
TOOL CLEANING	: with water
NOT FROST RESISTANCE
